

# Handy-Handle

## Assembly Instructions

1. Line up the two vertical holes by overlapping the two Handy-Handle parts as shown in Figure 1.
2. Place the fastener through each hole (by using a screwdriver to tighten one side while holding the other side with a penny) as shown in figure 1.

*Note: Make sure that the split-flutes are to the inside of the unit and the flaps will open to the inside.*

Figure 1

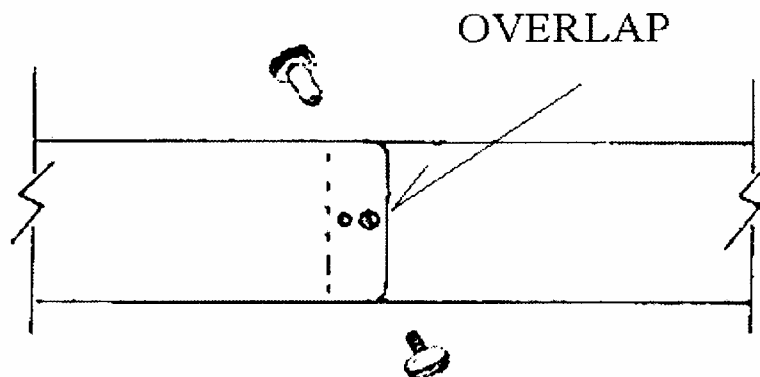

**Warning: This package contains small parts. Please keep this out of reach of small children. You must be over the age of 12 years to assemble this product.**

3. Place the unit into a circle and attach the last fastener into one of the two horizontal holes as shown in figure 2 (refer to step 2 for fastener instructions).

*Note: The horizontal holes can be adjusted smaller or larger depending on the diameter of the bag.*

Figure 2

## Attaching Handy-Handle to a Trash Bag

1. Place the Handy-Handle unit inside and at the top of the bag making sure that all of the flaps are open.
2. Start at any flap and by using your finger tips push the edge of the bag into each flap and push the flap back into place. This will lock the flap into place and secure the bag.
3. Once this is done all the way around the unit (Or bag), the now attached Handy-Handle is ready for use as shown in figure 3.

Figure 3

**Caution: This product is to be used for trash bag support only. Our company is not responsible for any misuse of this product and/or fingers caught in the flaps during assembly and attachment. Our instructions make this a very safe and easy product to use.**
